Labour Force Statistics Highlights

BRITISH COLUMBIA | BCStats

Reference date: November 2017 Issue: #17-11 Released: December 1, 2017

The unemployment rate decreased 0.1 percentage points to 4.8%.

The participation rate increased 0.4 percentage points to 65.3%.

The employment rate increased 0.4 percentage points to 62.2%.

B.C. Highlights

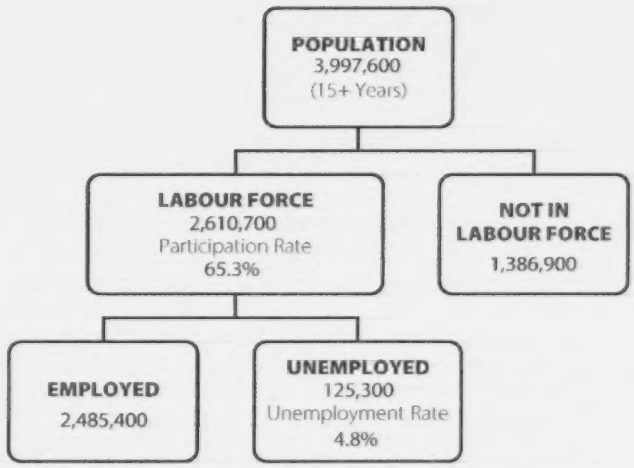
The unemployment rate in British Columbia was 4.8% in November, down 0.1 percentage points from October and below the 6.1% it was 12 months ago. Compared to the previous month, the labour force grew (+16,500), there was an increase in employment (+18,200) and a small drop in the number of unemployed (-1,700). In the twelve months to November, job growth (+92,000) outpaced the growth in the labour force (+61,500).

There were 4,100 more full-time and 14,200 additional part-time jobs in November when compared to October. After part-time employment fell for workers in all age groups in October, increases recovering some or all of the losses were posted in November: 15 to 24 (+4,600 or +2.8%), 25 to 54 (+3,800 or +1.8%), and 55 and over (+5,800 or +4.1%).

In November, employment in the public sector (+9,600) was up, as were the number of self-employed individuals (+6,900), while the private sector (-4,200) saw a decline in the number of jobs.

Provincial Comparisons

At 4.8%, British Columbia's unemployment rate was the lowest in Canada during the month of November. Manitoba and Quebec were tied for second lowest at 5.4%, followed by Ontario (5.5%) and Saskatchewan



(6.0%), while Alberta's unemployment rate (7.3%) was fifth highest among the provinces.

National Highlights

Employment in Canada increased (+79,500 or +0.4%) during the month of November. The unemployment rate decreased from 6.3% to 5.9% during the same time period, and was down from one year ago when it was 6.8%.

Gender

In November, employment in British Columbia for men (aged 25 years and over) grew by 8,500 jobs, while the labour force increased by 8,800. As a result, the

Note: All labour force statistics are seasonally adjusted, unless otherwise indicated

unemployment rate was 4.4%, unchanged from the previous month.

For women (aged 25 years and over), 5,100 jobs were added in November. The labour force saw an increase of 3,000, resulting in the unemployment rate dropping 0.2 percentage points to 4.1%.

Compared to November 2016, the unemployment rate for men was down by 1.2 percentage points to 4.4%, and for women it was down by 1.0 percentage points to 4.1%. Jobs for men increased by 32,100 (+3.0%) compared to a year ago, and for women employment climbed by 32,200 (+3.3%).

Youth Aged 15 to 24 Years

The unemployment rate for youth aged 15 to 24 years dropped to 7.8% in November, down 0.2 percentage points from the previous month. Employment increased by 4,700 jobs, while 4,700 more individuals joined the labour force. A large majority of the positions added were part-time (+4,600 jobs), with a small increase in full-time employment for youth (+100 jobs) as well. Compared to November 2016, the unemployment rate for youth declined by 2.7 percentage points to 7.8%.

Census Metropolitan Areas (CMAs)

In November, employment grew in Vancouver (+15,900 or +1.1%) and in areas outside the CMAs (+5,000 or +0.7%). Victoria (-1,100 or -0.6%), Kelowna (-900 or -0.9%), and Abbotsford (-700 or -0.8%) saw decreases in employment from the previous month.

Industry

In November, employment in the goods-producing sector was up (+7,300 or +1.5%) overall. There were employment gains in construction (+7,000 or +3.0%), as well as in agriculture (+800 or +3.0%) and forestry, fishing, mining, quarrying, oil and gas (+700 or +1.5%). Conversely, manufacting employment contracted (-1,500 or -0.8%). In the twelve months to November, the goods-producing sector added 25,500 (+5.3%) jobs.

In November there were 10,900 (+0.6%) more jobs in the services-producing sector over the previous month. Other services (+8,000 or +7.3%) saw the largest increase, followed by health care and social assistance (+3,900 or +1.3%), wholesale and retail trade (+3,500 or +0.9%) and educational services (+2,600 or +1.6%). Employment shrank in business, building and other support services (-2,500 or -2.5%), public administration (-2,500 or -2.5%), and accommodation and food services (-2,400 or -1.3%). Since November 2016, the services-producing sector has added 66,500 (+3.5%) positions.

NOTES: 1. Occupation specific Unemployment Rates include only those unemployed who worked in the past year. The "All Occupations" rate incorporates total unemployed persons which includes an "Occupation Unclassified" category.

2. Due to the relatively small sample sizes from which disaggregated data are derived, caution should be used in the interpretation of month-to-month changes in the estimates.

3. For the unemployed, industry or occupation is based on the last job held in the previous year. No information is collected on industry or occupation of job search.

Labour Force Statistics

This report is based on statistics from the Labour Force Survey produced monthly by Statistics Canada.

Definitions and Explanatory Notes

Reference Week

Monthly estimates of employment, unemployment, and persons not in the labour force refer to the specific week covered by the survey each month, normally the week containing the 15th day.

Labour Force

The labour force is composed of those members of the civilian non-institutional population 15 years of age and over who, during the reference week, were employed or unemployed.

Employed

Employed persons are those who, during the reference week, either: (a) did any work at all, or (b) had a job but were not at work due to own illness or disability, personal or family responsibilities, bad weather, labour dispute, vacation, or other reason not specified above (excluding persons whose job attachment was to a job to start at a definite date in the future).

Unemployment

Unemployed persons are those who, during the reference week, either: (a) were without work, had actively looked for work in the past four weeks (ending with the reference week), and were available for work; or (b) had not actively looked for work in the past four weeks but had been on layoff and were available for work; or (c) had not actively looked for work in the past four weeks but had a new job to start in four weeks or less from the reference week, and were available for work.

Unemployment Rate

The unemployment rate represents the number of unemployed persons expressed as a percentage of the labour force. The unemployment rate for a particular group (age, sex, marital status, etc.) is the number of unemployed in that group expressed as a percentage of the labour force for that group.

Participation Rate

The participation rate represents the labour force expressed as a percentage of the population 15 years of age and over. The participation rate for a particular group (age, sex, marital status, etc.) is the labour force for that group expressed as a percentage of the population for that group.

Employment Rate

The employment rate (employment/population ratio) is the number of employed persons expressed as a percentage of the population 15 years of age and over. The employment rate for a particular group (age, sex, marital status, etc.) is the employment for that group expressed as a percentage of the population for that group.

Rounding

Estimates published by the Labour Force Survey are rounded to the nearest thousand but all derived values (totals, averages, rates, ratios, percent changes etc.) are calculated from unrounded figures. Therefore, the sum of the individual rounded items may not equal the total.

Seasonal Adjustment (S.A.)

Fluctuations in economic time series are caused by seasonal, cyclical and irregular movements. A seasonally adjusted series is one from which seasonal movements have been eliminated. Seasonal movements are defined as those which are caused by regular annual events such as climate, holidays, vacation periods, and cycles related to crops, production and retail sales associated with Christmas and Easter. It should be noted that the seasonally adjusted series contain irregular as well as longer-term cyclical fluctuations.
